### EDUCATION

#### Jaipur National University

2020 - 2023

Bachelor of Computer Applications

#### Holy Child Public School

2014 - 2020

### LANGUAGES

Hindi Native  
English Conversational

### PROFILE

I am a highly motivated individual with a prestigious degree in computer science who has shown unwavering dedication and remarkable talent. I'm constantly pushing for academic excellence, staying current with technological advances, and developing my problem-solving abilities. My involvement in notable contests and advisory work with non-profit organizations demonstrate my keen interest in cybersecurity. In my spare time, I feed my creative side by creating articles and sharing my knowledge. With steadfast attention and a great interest in computer science, I believe I can contribute considerably in any collaborative situation.

### WORK EXPERIENCE

#### Cybersecurity Intern

Cyber Secure India

Aug 2023 - present

During my enriching three-month internship at Cyber Secure India, I immersed myself in the dynamic world of ethical hacking and digital forensics. Through hands-on experience and expert mentorship, I gained valuable insights into safeguarding digital landscapes and investigating cyber incidents.

#### Cybersecurity Intern

TechnoHacks EduTech

Jul 2023 - Aug 2023

My exceptional one-month Internship at TechnoHacks EduTech delved me into cybersecurity, equipping me with valuable experience and knowledge.

#### Front-End Developer

Bharat Intern

Jun 2023 - Aug 2023

At Bharat Intern, I had the privilege of a transformative one-month unpaid Internship where I shined as a Front-End Developer, contributing my creative skills to meaningful projects.

#### Network Engineer

Liam's Education and Charitable Trust

Jun 2023 - Aug 2023

During my extraordinary two-month paid Internship at Liam's Education and Charitable Trust, I was provided with invaluable opportunities to excel in network management and research-related responsibilities.

### PROJECTS

#### Hacker-Tools

Tools made in Python programming language help cybersecurity students in their tasks.

#### Personalized

Tools build by using python programming language, used for solving daily life mess.

#### Cyber-Hub

Cyber-Hub's core objective is to promote awareness among senior citizens and teenagers. People should be aware of how to secure themselves due to the rapidly growing pace of cybercrime.

### ADDITIONAL INFORMATION

I assisted in resolving people's computer-related issues as a freelancer on numerous internet platforms. My earlier works:

- Cybersecurity Consultant
- Teaching
- Tutorials & Blogs
- IT Help Desk
